**This Fee Schedule reflects fees associated with accounts held at IPG's clearing firm, Pershing LLC**

\*Fee includes additional markup by IPG in excess of clearing firm fee. Markup is utilized by IPG to offset operational costs and any difference should be viewed as additional compensation to IPG. IPG may share a portion of the excess markup with its Financial Professionals. These are Standard BD account fees noted and they may differ for certain account types or agreements.

\*\*These charges are in addition to your agreed upon advisory fee. Fees apply to advisory accounts with custody maintained at Pershing, LLC. Advisory accounts serviced by IPG with custody outside Pershing are subject to fees applicable to the client's designated custodian. Clients should review their respective custodial agreements upon establishing their asset custodial arrangement.

\*\*\*An inactive account is defined as an account holding a security position for a calendar year (Jan. 1-Dec. 31) without generating a trade, or free credit/margin interest of \$100 or more. Systematic reinvestment activity in Mutual Funds (SYS system) and/or exchange activity in mutual funds (FundServ) will be considered as a trade. However, dividend reinvestment activity is not considered as a trade.

\*\*\*\* Data Access Services or Datamart Set-Up and Monthly Fees will be quoted on an individual basis and are not included in above fee schedule.

\*\*\*\*\*SEC or other local market (non-US) fees are beyond IPGs control and applicable by Country – Please call us for pricing.

\*\*\*\*\* Free Credit Balances on Foreign Currency - Custodian Charges apply to accounts holding credit balances on foreign currencies based on thresholds and Bank rates. Charges will be reported as Free Credit Balance Interest Charge on NetX360 and account statements. They will be reported on client's annual tax Forms 1099 and/or 1042-S. Charges vary by currency. Please call your account executive for specific currency charges.

\*\*\*\*\*The IPG annual fee is charged during the month of December each year. Account closures prior to the month of December will be assessed a **prorated** amount of the annual fee.
